### "The Tech-Wise Family" (Andy Crouch) Reclaiming real life in a world of devices

Making good choices about technology in our families is more than just using internet filters & determining screen-time limits for our children. It's about building character, wisdom and courage rather than accepting technology's promises of ease & instant gratification. It's about developing our heart, mind, soul & strength when we're tempted to settle for entertainment & consumer satisfaction. And it's definitely not just about the kids.

Alongside in-depth original research from Barna Group that shows how families are wrestling with technology's new realities. Andy Crouch takes parents beyond the typical questions of what, where and when to show us that in a world full of devices, there's a way to choose a better life than we've imagined.

*"If you aren't sure how to put technology in its 'proper place' in your home, Andy will guide you and challenge your thinking"*

The goal of Discovery Bible Studies is to guide individuals, both Believers and non-Christians, through the Bible as they discover God's redemptive plan. We have seen many people come to faith in Christ as they read God's Word, many for the first time, and see for themselves the mercy of God as revealed through Jesus. We hope that you will find the M:28 Training helpful to you as you seek to share the love of Christ to people in your community.
